1. The Examiner has carefully considered Applicant's Response of 7/25/01 and comments in paragraph 2 below. The Terminal Disclaimer has been entered and overcomes the double patenting rejection.

2. Claims 1-39 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The term "substantially" renders the pending claims indefinite. The Examiner has carefully considered Figure 19 and the associated text in the Specification and recommends that Applicant amend the claims to reflect the physical structure as shown in Figure 19, in particular, the arrangement of the magnets to the powder within the mold and the punches 106 and 109.
